Dear Sir or Madam:

We write to your Office in order to request a refund for the Notice of Appeal, which was filed electronically in the U.S. Patent & Trademark Office on January 24, 2008, for the above-identified patent application.

Per page 2 of the Final Office Action mailed October 24, 2007 Examiner Gary Nickol stated that "the previously paid notice of appeal fee and appeal brief fee can be applied to the new appeal." To avoid abandonment of the application we filed the Notice of Appeal, and paid the fee of (\$510). However, we would now like to request a refund of the Notice of Appeal fee. Attached is a copy of page 2 of the Final Office Action mailed October 24, 2007 mentioned above.

Please credit Deposit Account No. 08-1641 (referencing Attorney's Docket No. 39780-2730 P1C3).

We appreciate your assistance with this matter.

DETAILED ACTION***Withdrawal of Finality***

In view of the Appeal Brief filed on 7/19/07, PROSECUTION IS HEREBY REOPENED. A reinstated grounds of rejection is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth in 37 CFR 41.20 have been increased since they were previously paid, then appellant must pay the difference between the increased fees and the amount previously paid.

A Supervisory Patent Examiner (SPE) has approved of reopening prosecution by signing below:

Claim Rejections - 35 USC §§ 101 and 112, first paragraph

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 124-125 and 129-131 remain rejected under 35 U.S.C. 101 because the claimed invention is not supported by either a credible, specific and substantial asserted utility or a well established utility for the reasons set forth in the previous Office action.
